

Pool Rules

- For the safety of all dogs visiting the recreation center, BCRC requires all our canine visitors to be vaccinated for rabies, distemper, parvo and bordetella.
- You are responsible for your dog and its behavior while in the recreation center, including your dog's interaction with other dogs.
- Please attend to your dogs at all times. There is no doggy life guard so this is especially important while your dog is in the rec pool.
- All dogs must be on leash while outside the gated pool area.
- The pool is available on a first-come-first-serve basis during normal hours of operation.
- Children must be under parental control at all times and may not get into the pool with a dog.
- No food or treats in the pool area.
- Incontinent dogs are not permitted in the pool for health reasons.
- Please inform a staff member immediately if there is an accident (vomit, urine, feces)
- No running by humans on deck or around pools.
- Feed your dog several hours before swimming or wait until after swimming.
- It is very important that you allow your dog to use the bathroom before entering the pool and every 15 minutes while swimming. Repeat accidents in and around the pool may result in a \$50 charge and/or a pool ban for your dog.
- Do not enter the gated pool area without permission from clinic staff.
- No muddy dogs in the pool. Please rinse them off in the shower before entering the pool area.
- No throwing dogs into the pool.
- Dog owners must sign-in before swimming your dog.
- Please ask for assistance if you need help facilitating interaction with other people and your dog.
- All doors and gates to pool room must be closed at all times.
- Ramp into pool is restricted to BCRC personnel and dogs only.
- All non-swimming dogs must be on a leash.
- Please make sure your dog does not obstruct the ramp for other dogs. Throw toys to keep them from standing on the ramp for extended periods of time.
- After the initial swim orientation, if your dog needs assistance in the pool, the assisted swim rates will apply.
